Re: Letter of Recognition

Dear Mr. Mayville:

The purpose of my letter is to expound and recognize Workaway International and its Palm Beach County country club clients for their workforce healthcare initiatives. This proactive and comprehensive healthcare initiative should stand as a model in the State, if not the Nation, for the country club industry.

For the past 16 years Workaway International and its country club clients have initiated healthcare screenings for all overseas staff. In addition, Workaway International has designed a comprehensive medical insurance program for its country club clients to purchase on behalf of its overseas staff. These actions were initiated and implemented by Workaway International and its country club clients without being prompted by governmental regulations or intervention. These initiatives were also done at great financial expense to the Workaway country club clients.

The Workaway overseas seasonal labor program is an asset to our community. It provides this community with a safe source of labor for this very important industry and does so without financially burdening the county's healthcare industry or regulatory agencies.

Thank you and the leadership of your country club clients for being so proactive in protecting the health care of your workforce and the citizens of our community.

Sincerely,

A handwritten signature in blue ink that reads "Alina Alonso".
