

IMPORTANT MESSAGE FROM MR. MAYVILLE REGARDING DREAM TRIPS COMPANY

To all Workaway International participants,

This evening I was informed, that an individual by the name of Laudon Fourie, a former Workaway International participant and another individual of South African decent have been contacting Workaway International participants this week about a company called DreamTrips. In their presentation I have been told that they may have indicated that I and Workaway International have endorsed the program being offered through DreamTrips. This information if given to you in their presentation is incorrect. Neither I nor Workaway International have in any way or at any time endorsed these individuals and/or the DreamTrips company program.

Should you decide to participate in the DreamTrips program you do so at your own risk. Please do not contact me, Workaway International representatives or club management to assist you should you proceed with joining this program and the representations made by these individuals or the DreamTrips company not measure up to your expectations. Proceed with these individuals and the DreamTrips company at your own peril.

You are welcome to contact me to discuss this matter before making a decision. You may also contact me if you have joined this company's program in the last few days and now want to leave the program.

I was briefed on the DreamTrip's company proposal on Wednesday of this week. After the meeting, Laudon Fourie asked if he could take a picture of us together for old time sakes. I informed these individuals that I would need to examine the proposal in depth before I would make a decision on participating in the DreamTrips proposal. **BASED ON MY RESEARCH I HAVE DETERMINED THAT THIS PROGRAM IS NOT A CONCEPT THAT I CAN ENDORSE.**

Given that these individuals appear to have misrepresented to Workaway International participants my endorsement of the program and may have used my picture in an apparent misrepresentative way it was important that you know the facts of the situation in case you are contacted to listen to a presentation or are considering participating in their program on the belief that I have endorsed their proposal. Nothing could be further from the truth.

Proceed at your own peril.

All the best,

William Mayville
