

**WORKAWAY**  
INTERNATIONAL

October 31, 2019

Mr. William E. Mayville Jr.  
Co-Investigator  
EMOC-1  
Weiss School  
4176 Burns Road  
Palm Beach Gardens, Florida 33410

Good morning William,

Your presentation of the CubeSat project EMOC-1 was very impressive. Workaway International (Workaway) is pleased to inform you that the company will agree to be the main sponsor for this project should it receive acceptance by the National Aeronautics and Space Administration (NASA). Workaway will commit funds totaling \$150,000.00 towards the construction of your EMOC-1 project. No other sponsors may be involved in the project without Workaway's permission. Should additional funding be required for the project, the company is open to further funding with justification.

In addition, Workaway, with the approval of NASA, will in addition sponsor a public speaking tour for you as the company's spokesperson regarding this project in the company's major markets; Ireland, Italy, South Africa and the United States. You will be asked to speak at schools, civic organizations and with the media. Workaway will have its public relations firm coordinate events and make your travel arrangements.

Workaway International sees this as not just a science project but also an opportunity to educate the public on CubeSat development and encourage young people to become excited about space exploration.

I and the staff of Workaway look forward to this joint venture.

All the best,

William E. Mayville  
President
