Company Overview:
Located in the iconic town of Highlands, Cullasaja Club is considered a crown jewel of North Carolina’s private golf communities.

Cullasaja Club has an intimate relationship with its surroundings—the Blue Ridge Mountains, the flowing Cullasaja River, a trio of waterfalls, the Arnold Palmer-designed golf course; Ravenel Lake, and neighboring Nantahala National Forest.

By the early 1880s, Highlands had become a fully functioning town with 8 country stores specializing in hardware, general merchandise and groceries, with a post office, a hotel, a public library, a boarding house for summer guests and a first class school. The town has since become a summer and health resort town in the Blue Ridge Mountains.

Known as one of the few temperate rainforests in North America, Highlands, NC has continued to grow over the years, with the 2nd highest altitude of an incorporated town east of the Mississippi River. The population swells from roughly 3,200 during the winter to over 30,000 in the summer months (April-October).

Among the area attractions residents and visitors enjoy are waterfalls, hiking trails and a variety of outdoor adventures. Bridal Veil Falls is a 45 foot waterfall located in the neighboring Nantahala National Forest, and is the only waterfall in North Carolina that you can drive under in a vehicle. Cullasaja Falls, estimated at 200 feet high in the Nantahala National Forest, is located on the Cullasaja River and is part of the Mountain Waters Scenic Byway. Dry Falls, measuring 65 feet, is part of a series of waterfalls on an 8.7 miles stretch of the Cullasaja River that ends with Cullasaja Falls.
